Record of Proceedings

Learned counsel for the Petitioners submitted that the present Petition has been filed, *inter alia*, to seek appropriate orders and directions appertaining to Section 63 transmission licensees, mainly to address issues relating to the recovery of tariff, including the probable under-recovery of tariff, where the scheduled commercial operation date of transmission projects has been extended by the competent authority on account of uncontrollable events. Learned counsel pointed out that the gap in payment of transmission charges for the shifted Operating Period had also been noted by the Commission in its order dated 15.1.2020 in Petition No.7/RP/2019 in the case of NRSS XXXI (B) Transmission Limited, wherein the Commission had granted the liberty to the licensee to file a fresh Petition regarding the tariff for the extended period. Learned counsel submitted that since the present Petition raises questions of law concerning the standard bidding documents issued under Section 63 of the Act with an impact on the TBCB transmission sector as a whole, the issuance of a Public Notice in the present Petition inviting responses from the affected persons may be required. 2. Learned counsel for Respondent No.5, MSEDCL, accepted the notice and sought time for filing a reply to the Petition.

3. Considering the submissions made by the learned counsels for the parties, the Commission directed as under:

(i) Issue notice on both the maintainability and merits of the case;

(ii) The Respondents to file their reply on both the maintainability & merits of case if any, within four weeks with a copy to the Petitioners who may file their rejoinder(s), if any, within four weeks thereafter; and the
