Sub: Comments/ Suggestions on the CERC Discussion paper on 'Shortening the scheduling Timeline for Real Time Markets in India'.

Dear Sir,

In reference to the public notice inviting suggestions on the CERC Discussion paper on 'Shortening the scheduling Timeline for Real Time Markets in India', we welcome the Hon'ble Commission's proposal to reduce the timeline between the end of 'Revision of Schedule' and the actual delivery of power.

With the objective of moving closer to delivery, proposed RTM timelines shall support the RE generators to optimize schedules and delivery while further reducing the deviations due to forecast errors. This shall further help with improving Grid stability and reduce punitive impacts on the RE generators.

Thanking You.
Yours Sincerely

Gaurav Maheshwari
Vice President – Regulatory Affairs
