**Return on Equity (RoE)**

20. The Petitioner has submitted that its Income Tax assessment has been completed, and the assessment orders have been issued by the Income Tax

Department for the FY 2019-20 and FY 2020-21, and the income has been assessed under MAT [115JB of the Income Tax Act, 1961 (IT Act, 1961)]. The Petitioner has further submitted that the Income Tax Returns (ITRs) have been filed for the FY 2021-22, FY 2022-23, and FY 2023-24 (filed in Petition No. 401/TT/2024).

21. The Petitioner has further submitted that it is liable to pay the income tax at MAT rates (17.472, i.e., 15% Income Tax + 12% Surcharge on Income Tax + 4% Health and Education Cess on Income Tax and surcharge) and has claimed the following effective tax rates for the 2019-24 tariff period:

Year	Claimed effective tax rate (in %)	Grossed-up RoE (in %) [(Base Rate)/(1-t)]
2019-20	17.472	18.782
2020-21	17.472	18.782
2021-22	17.472	18.782
2022-23	17.472	18.782
2023-24	17.472	18.782

22. MPPMCL has submitted that the Petitioner has grossed up the RoE on the basis of actual taxes paid during the FYs 2019-20, 2020-21, 2021-22 and 2022-23. For the FY 2023-24, it has been grossed up on the basis of the applicable MAT rate, surcharge and cess. Further, the Petitioner has not placed on record the assessment orders, and also, it has not claimed the grossed-up RoE on the basis of the actual taxes paid for the FY 2023-24.

23. In response, the Petitioner vide affidavit dated 8.3.2025, has submitted that MPPMCL is repeatedly raising the issues concerning income tax assessment in multiple tariff Petitions filed by it. The Petitioner has urged the Commission to take into consideration its rejoinder to the reply of MPPML in Petition No. 401/TT/2024 with reference to the issue of income tax assessment.

24. We have considered the Petitioner's and MPPMCL's submissions and have also gone through the record. We noted that the entities covered under the MAT regime are paying Income Tax as per the MAT rates notified for the respective financial

year under the IT Act, 1961, which is levied on the book profit of the entity computed as per Section 115 JB of the IT Act, 1961. Section 115 JB (2) defines book profit as net profit in the statement of Profit and Loss prepared in accordance with the Schedule-II of the Companies Act, 2013, subject to some additions and deductions as mentioned in the IT Act, 1961. Since the Petitioner has been paying the MAT rates of the respective financial year, the notified MAT rates for the respective financial year shall be considered as an effective tax rate for the purpose of grossing up the RoE for truing up of the 2019-24 tariff period in terms of the provisions of the 2019 Tariff Regulations. Interest imposed on any additional income tax demand as per the Assessment Order of the Income Tax Authorities shall be considered on the actual payment. However, the penalty (for default on the part of the Assessee), if any, imposed shall not be taken into account for the purpose of grossing up the rate of RoE. Any under-recovery or over-recovery of the grossed-up rates on the RoE after truing-up, shall be recovered or refunded to the beneficiaries or the long-term customers as the case may be on a year to year basis. Therefore, the following effective tax rate based on the notified MAT rates is considered for the purpose of grossing-up the rate of RoE:

Year	Notified MAT rates (in %) (inclusive of surcharge & cess)	Effective tax (in %)	Base rate of RoE (in %)	Grossed-up RoE [(Base Rate)/(1-t)] (in%)
2019-20	17.472	17.472	15.500	18.782
2020-21	17.472	17.472	15.500	18.782
2021-22	17.472	17.472	15.500	18.782
2022-23	17.472	17.472	15.500	18.782
2023-24	17.472	17.472	15.500	18.782

25. Accordingly, the trued-up RoE allowed in respect of the Combined Asset for the 2019-24 tariff period is as follows:

(₹ in lakh)						
Combined Asset						
	Particulars	2019-20	2020-21	2021-22	2022-23	2023-24
