To

Secretary, Central Electricity Regulatory Commission
(Through email: secy@cercind.gov.in)

Subject: Central Electricity Regulatory Commission (Indian Electricity Grid Code) (Second Amendment) Regulations, 2026.-reg.

महोदय,

Reference is invited to the Hon'ble Commission's Public Notice No. L-1/265/2022/CERC dated 21st September, 2026, whereby the *Central Electricity Regulatory Commission (Indian Electricity Grid Code) (Second Amendment) Regulations, 2026* were issued, inviting comments from stakeholders.

In this regard, the comments of the NRPC Secretariat on the said draft regulations are hereby submitted for the kind consideration of the Hon'ble Commission.

अनुलग्नक – यथोपरि ।

भवदीय,

CEA-GO-17-14(12)/1/2023-NRPC

Comments on Draft
Central Electricity Regulatory Commission (Indian Electricity Grid Code) (Second Amendment) Regulations, 2026

The following comments on Draft Central Electricity Regulatory Commission (Indian Electricity Grid Code) (Second Amendment) Regulations, 2026 are respectfully submitted for the kind consideration of the Hon'ble Commission:

1. **Regulation 22: TRIAL RUN OF GENERATING UNIT**

1.1. Clause (3) Trial Run of Wind / Solar / ESS / Hybrid Generating Station

While the existing provisions in principle regulations may impose an unduly rigid limit on the number of instalments of trial run for large generators, allowing an unlimited number, as proposed in the amendment, may be operationally cumbersome for RLDCs in coordinating and verifying trial runs. It is suggested that a reasonable limit on the number of instalments of trial run may be defined, keeping in view the practical difficulties faced by both generators and RLDCs.

2. **Regulation 30A: "Congestion Charge"**

2.1. IEGC is designed to be primarily a grid-operation framework, rather than commercial accounting and settlement one. With provisions for SCUC and ancillary service charge calculations already included, incorporating congestion charge calculations and settlement would further burden IEGC with commercial mechanisms. It is suggested that such commercial settlements may be retained/ defined as a separate regulatory framework.

2.2. The phrase *"along with interest"* in Clause 30A(7) may imply that recipient entities are also entitled to interest for delays by the RLDC in releasing congestion charges. The provision may explicitly clarify whether such interest is payable, the circumstances in which it applies, and the entity liable for payment.

3. **Regulation 45(17) and Annexure 8: "Scheduling of Free Power Share of State Governments"**

3.1. State Government does not appear to qualify as an entity under "**RLDC control-area**" jurisdiction under provisions of regulation 43 of IEGC, as it has no connectivity to the ISTS. The same may kindly be clarified in the IEGC.

3.2. The State Government does not appear to qualify as a **"Regional Entity"** under the IEGC, as it has no established metering at the regional level and does not fall under RLDC control-area jurisdiction. Further, its treatment as a buyer and the proposed definition of deviation may kindly be provided in the DSM Regulations rather than the IEGC, to **avoid ambiguity** over which provision prevails.

3.3. Exemption from levy of transmission deviation charges may be defined may kindly be provided in the Sharing Regulations rather than the IEGC, to **avoid ambiguity** over which provision prevails.

3.4. A schedule requires transmission access, which depends on ISTS/ InSTS connectivity and defined grid interface points for injection and drawal. The State Government has neither, as the bus-bar is owned by the generator and it has no

drawal point(s) of its own. Further, its eligibility for GNA/T-GNA and schedule independent of transmission access does not appear to be expressly established and may kindly be defined in the GNA Regulations and the IEGC.

3.5. Under ABT, schedule power is treated as deemed delivered. The State Government has no means to deliver any excess sale or consume any shortfall, and settling the difference through DSM may leave the grid's net injection and drawal schedules unbalanced. Any excess sale, before gate closure, may kindly be required to be squared off in RTM.

3.6. It has been observed in recent weeks that power sold by one particular state government directly through busbar in many of the hydro stations in northern region has been exceeding SG's entitlement at busbar by substantial margins to the tune of 30%-100% in many cases. Relevant extracts from Deviation Charges statements issued by NRPC secretariat are attached herewith for reference.

3.7. Scheduling without a GNA/T-GNA requirement, together with the proposed inherent exemption from transmission charges and losses, may shift the burden of sharing of ISTS charges to other DICs. This may kindly be examined and addressed in the respective regulations.

3.8. Suitable enabling provisions to implement the free power procedure may kindly be made in the relevant regulations (GNA, IEGC, DSM and Sharing Regulations). Incorporating the procedure solely through an IEGC procedure may create ambiguity in interpretation and implementation.

Northern Regional Power Committee
