

CENTRAL ELECTRICITY REGULATORY COMMISSION
8th Floor, Tower-B, World Trade Center,
Nauroji Nagar, New Delhi - 110029

No. RA-14018(11)/3/2021-CERC

Dated 28th September, 2026

**Sub: "Engagement of Individual Consultant at the level of
Advisor (Renewable Energy)"**

1.0. Background:

1.1 The Central Electricity Regulatory Commission constituted under the erstwhile Electricity Regulatory Commissions Act, 1998 (short as "ERC Act") was recognized as the Central Electricity Regulatory Commission (short as "CERC") under the Electricity Act, 2003. The Electricity Act, 2003 has significantly enlarged the spectrum of responsibility of the Central Electricity Regulatory Commission. The Central Commission has been vested with the functions under the Electricity Act, 2003 (short as "the Act") to regulate the tariff of the generating companies owned or controlled by Central Government, generating companies having a composite scheme for generation and sale of electricity in more than one State, to regulate inter-State transmission of electricity and determination of tariff for inter-State transmission in electricity and development of market among other functions.

1.2 Following are the statutory functions of CERC:

- a. to regulate the tariff of generating companies owned or controlled by the Central Government;
- b. to regulate the tariff of generating companies other than those owned or controlled by the Central Government specified in clause (a), if such generating companies enter into or otherwise have a composite scheme for generation and sale of electricity in more than one State;
- c. to regulate the inter-State transmission of electricity;
- d. to determine tariff for inter-State transmission of electricity;
- e. to issue licenses to persons to function as transmission Licensee and electricity trader with respect to their inter-State operations;
- f. to adjudicate upon disputes involving generating companies or transmission licensee in regard to matters connected with clauses (a) to (d) above and to refer any dispute for arbitration;
- g. to levy fees for the purposes of this Act;
- h. to specify Grid Code having regard to Grid Standards;
- i. to specify and enforce the standards with respect to quality, continuity and reliability of service by licensees;
- j. to fix the trading margin in the inter-State trading of electricity, if considered, necessary;
- k. to discharge such other functions as may be assigned under this Act.

1.3. Since the enactment of Electricity Act 2003, the power sector has undergone major structural changes. The Act is based on the philosophy that consumers benefit from growth of competitive markets. The Act has de-licensed generation. Multiple players are required for competitive markets. This is done by allowing multiple licensees in the same area and also allowing 'Open Access' to consumers generators and also licensees. The trading platform of Exchanges has already started. In so far as Renewable Energy sources are concerned, the Act has entrusted on the regulators the responsibility of promoting such sources of energy.

1.4. CERC has taken a number of initiatives to promote and integrate renewable energy. The Commission has issued tariff regulations for determination of tariff of various RE technologies; created the framework for forecasting, scheduling and deviation settlement for infirm RE sources like wind and solar; introduced Ancillary Services to take care of balancing requirements of RE; and also created enabling market frameworks like Real Time Market, Green Term Ahead Market (GTAM) and Integrated Day Ahead Market (IDAM) to facilitate participation of RE generators in the market. CERC has also notified REC framework which is a market-based instrument to promote renewable energy and facilitate compliance of Renewable Purchase Obligation.

1.5 The country has set a target of adding 450 GW of RE by 2030. The role of the Central Commission assumes greater importance in the wake of such large scale penetration of RE into the power system. The Commission needs to take advance action and is already working on the next steps on which creating regulatory framework for integration of RE of this magnitude.

1.6. In view of the above activities in the renewable energy, the Commission proposes to engage an Individual Consultant, in the area of renewable energy to be designated as Advisor based on experience, qualifications and other criteria as specified in CERC (Appointment of Consultants) Regulations, 2008 and its amendment from time to time and in this TOR.
